Yeah this game is dope. 2hu bootlegs, witty writing, less than a dollar. Pick it up.. Game is very good. I'm on my way to complete all the achievements. I don't even know what do say. This game is just so fun for just a dollar. It's totally worth it. My eyes kinda hurt from the textures but well.. There has to be a downside. (message for devs. You can't exit the bonus stage with all the characters after beating that thug mode by pressing the button you made for it. It just doesn't work. *or im just dumb*. Only played for a bit but so far, I've seen the game having so many things happening at once that it quite difficult to get into but once you've gotten the hang of the features one by one, it's a fun and rewarding game. The only thing I dislike about it was the UI being quite intrusive at times but otherwise, it's one of those hidden gems on Steam that's not for everyone but doesn't mean it's a bad thing.. Short, but IT'S SO FUNNY OMG.

It's such a nice experience. It's like the bastard son of Touhou and Crypth of the Necrodancer.

. Pros

- > Unique Gameplay Mechanics
- > Interesting storyline
- > Humorous dialogues
- > Only a dollar
- > Yuuto Ichika Best Girl

Cons

- > no shift to focus

Yuuto Ichika/10

would recommend

Here because of Siivagunner. A fun bullet hell game with Touhou and Melee references. Very speedrunable.. If you are bad at video games, this is a perfect game for you! I can't remember what this game is about because there are always some weird letters telling me "WOW! YOU DIED!" on my screen. Maybe I should die less. Maybe I should get some skill. Maybe... whatever, I just enjoy this game as it is. I managed to reach the bad end (stage 4) in around 40 minutes and I'm proud of myself! :D Super Ledgehop: Double Laser is a very fun game. I love the style of this game, I like the gameplay. You can't go wrong for this price!. That's not safe, my guy.. Bullet hell's aren't really my thing but I can see myself playing this for hours, it's got really nice design and enthusiastic voice work. Love the shoot to the beat rhythm mechanic.. 11/10 Very fun, I'm now hungry for cheesesteaks

But in seriousness, this game is very very fun and gave me lots of laughs, while also providing a significant challenge but gratification when you finally beat it, definitely will recommend and for a dollar, it's a no brainer to buy it. So if you haven't, but it.. you cheesehead!. A great game with interesting mechanics and characters. Awesome music, and chizuru is best girl (yuuto is really good too)

Also the pause screen has cook art

Yuuto Ichika Mod for a Fangame + Portuguese Localization Hype!:

Yo! We have yet another localization finished, and it's all for our homies in Brazil. All cutscenes and text based graphics are now translated into Portuguese. In addition to this, the bonus room for beating Thug Wars is now fully translated in all languages, where some texts there were only available in English. To finish this off, we've also made a few small bug fixes, which are just to prevent a few softlocks in the game. New dialogue is also placed for those who get stuck during the Yuuto minigame section. The translation is provided by StargazerG: <https://twitter.com/StargazerG>

Also, in order to celebrate April 4, which is the day where we obtained permission to use Yuuto Ichika in all of our games, we decided to create a mod that makes her playable in a certain fangame. This mod comes with all new art and voices, with full animations, so please, do enjoy and celebrate the first anniversary of us being able to use the best bootleg girl ever in our creations.

[Formal Announcement]

Greetings, cheeseheads. This is MSLabo102 (or some of you might've seen me as [???????](#)), the Japanese localizer of LAME Dimension.

Instead of our lead ChairGTables, I am here to announce our new release.

<https://www.youtube.com/watch?v=PYN3jStdCjM>

Are you wondering what happened to your favorite crew like

Yuuto, Liz or even Chizuru, after the events of Super Ledgehop? Now the question is answered in our latest entry "Yuuto Ichika Makes Friends" for Game Boy.

After the recent battle over the city, Yuuto has found how to get back to her home world. To find her best friend Chizuru and say goodbye, she embarks on a little adventure. On her way, she will meet many quirky residents of Shinecoast City and learn love and what it takes to not to be a bootleg.

This Game Boy compatible adventure game was originally created in only 1 week with GB Studio, which was released as the 30 year anniversary celebration of Game Boy.

Unexpectedly, the game was a follow-up to Super Ledgehop, so I've got to localize the game into Japanese, thanks to the developers who implemented Hiragana and Katakana (It took 2 weeks to fully implement and translate).

In Japan, the calendar has recently changed from Heisei to Reiwa, and we have made a brand new chapter of the saga, on the hardware born in the beginning of Heisei.

We all hope you like it.

One girl, has wandered in...

A dramatic Yuuto theme remix with vocals plays on full volume

She had a complex...

Yuuto "And I'm considered to be a bootleg."

??? "WHY WHY WHY!?"

Crossette "But before I say goodbye..."

??? "Nothing personal, kid."

Yuuto "He is my friend too!"

A new friends... and partings.

??? "You are the best bootleg friend."
