Take the service from Brixton Station to Clapham Junction, with a service travelling over Clapham High Street, Northumberland Avenue, South London Bridge and the Norwood Overground. This route includes recreations of Clapham Common, Clapham North and Clapham Common Overground, running alongside the south side of the Thames and over parts of the West London Line. This route starts with a 25mph gradient from Brixton to Clapham Junction, and then drops to a more manageable 7mph through the inner boroughs, Dover to Croydon and East Croydon. This route takes you through some of the most well-known locations in East London. This service starts at Dover, travelling through East Croydon, New Cross Gate, Crystal Palace, Sydenham, Plumstead, Crystal Palace, and Barking.
