TOTALLY WORTH 3 BUCKS <https://youtu.be/6ZVFPJTN3B8>. This game is way more fun than I expected. I actually caught myself doing a victory dance after one of my first rounds. It IS a very simple game, so I suspect it doesn't have a lot of staying power, but for \$3? Definitely worth a few hours of low-key fun, even if you're playing against just the AI. I would love to see this as more of a fully-fledged game, because there's room for additional mechanics and levels and such. It's kinda a one-trick pony, but that trick is still a lot of fun.. Fun little game - simple, but really challenging - Absolutely worth the money.. Fun arcade game for the whole family. Fun little game, interesting game play and AI is pretty good. Highly recommend playing with friends too.. Fun little game - simple, but really challenging - Absolutely worth the money.
